Highlights

Multiple Volume Selections

Supports continuous flow and preset volumes of 150, 250, 350, and 500ml, making it easy to match different cup sizes and usage scenarios.

5L large-capacity tap water tank

The 5L large-capacity tap water tank reduces refilling frequency for greater convenience, making it ideal for household use.

Instant Heating

Experience instant hot water with advanced heating technology, delivering your preferred temperature in seconds. Choose from four precise presets—Ambient, 45°C, 85°C, and Hot—to perfectly match every need: from refreshing drinks and sensitive baby formula to rich coffee and steeped tea.

RO Filter Cartridge

Experience cleaner, safer water every day with Aquaporin Inside® technology. This breakthrough reverse osmosis filtration system harnesses the power of nature's own water channels, aquaporin proteins, for superior filtration down to 0.0001 microns. It reduces up to 110 contaminants*, ensuring you enjoy refreshing, pure-tasting water for your everyday needs. Achieves 99.999% viral removal rate, with powerful filtration of emerging contaminants including pesticides and microplastics.

Installation-Free Countertop Design

Designed for effortless setup: requires no drilling or permanent plumbing. It adapts seamlessly to any environment with simple plug-and-play operation.

Specifications

Filter specifications

Filter precision: down to 0.0001 microns
Replacement filter cartridge: ADD535
Filtration capacity: 2000L
Main filter media: RO
Filter lifetime: Up to 12 months
RO specifications: 50 Gallon

General specifications

Product Dimension (LxWxH): 183*430*386 mm
Heating Type: Instant Heating
Water temperature: Ambient, 45℃, 85℃, Hot °C
Water volume: 150, 250, 350, 500mL
Raw water tank: 5L
Filter lifetime indicator
Input water temperature: 5-38℃ °C
Rated power(heating): 2380 W
